

To whom it may concern:

We are lifelong Connecticut residents and remain here solely because of family commitments. Our beautiful state is still beautiful but has become so outrageously expensive and business unfriendly it is unconscionable. Government spending has been out of control for decades and no administration has done anything meaningful to rectify the situation. This Governor's budget is a disaster.

Overtaxed and overregulated, businesses choose other states and young people leave. It is beyond comprehension that legislators in Connecticut continue doing the same thing and expect a different result. Shame on all of you for ruining our state and leaving our seniors, children and grandchildren with an insurmountable financial burden.

REDUCE SPENDING NOW!!!! It can be done. Act responsibly and find a way to do it!

Sincerely,

Don and Sarah Vallera
